

## **Brute/B Marine Oil Water Separator International Certifications**

### **US Coast Guard Certified**

Our line of Brute/B marine Oily Water Separator is certified and approved by the United States Coast Guard (USCG). And include both the older IMO MEPC 60(33) certification and the new IMO MEPC 107(49) certification. Units were tested by certification labs to operate within the limits and regulations of the IMO standards. USCG certification is therefore available for your unit as an option if you need it.

### **IMO - International Maritime Organization**

The IMO has established the standards that have to be met for certification. Our Brute/B units have been tested to these standards and the testing verified by the USCG for both IMO MEPC 60(33) and IMO MEPC 107(49).

### **ABS Certification**

ABS has given it's product design assesment approval to the Brute/B Separator.

### **Bureau Veritas Type Approval**

A certificate of Type Approval has been obtained from the Bureau Veritas.

### **China Classification Society Type Approval**

A certificate of Type Approval has been obtained from the CCS.

### **Marine Equipment Directive Approval**

This system is certified to the European Marine Equipment Directive.

### **Other Certifications**

Other certifications are available including CE Mark and ATEX Directive.
