MiniHAWG DRUM SKIMMER Model# MH12x12

The MiniHAWG floating drum skimmer is designed as an extremely portable and robust drum skimmer. One (1) 12" diameter by 12" long oleophilic drum is capable of recovering hydrocarbons at rates of up to 600 gallons per hour, depending on the viscosity of the oils. Air drive.

The MiniHAWG DRUM SKIMMER FLOTATION UNIT is 25" wide X 30" long X 15" high, weighs approximately 42 lbs. and constructed of lightweight aluminum frame with an oleophilic drum. Lifting handles and boom connector attachment points are provided. Includes filter/regulator/lubricator (FRL) and air hose. This pneumatically driven skimming unit requires 0-100 psi @ 5 scfm air supply to the included FRL controller. Can run off your air compressor or can even be run off the air brakes on a vac truck.

OPTIONAL: Fuzzy drum coating increases recovery rate by as much as 50%.
