

TBS2 Belt Oil Skimmer Collection Rates up To 6 GPH

Our Model TBS2 SKIMMERS are for applications that require up to 6 gallons of oil collection per hour! More affordable than our competition and rugged enough to handle the toughest environments, TBS2 is the perfect solution for your central coolant system or wastewater treatment tank!

TBS2 is made of stainless steel and lightweight polymers, so it is lightweight, corrosion-proof, portable, and able to thrive in harsh or caustic environments!

BELTS FOR MODEL TBS2 ARE AVAILABLE IN TWO MATERIALS:

Stainless Steel: available in widths of 2.25" or 4". Available in reach lengths up to 10 feet! **Flat Polyurethane:** available in widths of 2" or 4". Available in reach lengths up to 100 feet!
